

Company Profile

ARCHITECTURAL DESIGN INNOVATIONS, INC. is a creative commercial interior design and space planning firm. Our commitment is to provide our clients with functional, aesthetically pleasing environments in a timely, cost efficient manner.

ADI was developed out of a desire to deliver excellent customer service and attention to detail. We pride ourselves on ensuring a fast response to our customers and developing long-standing relationships with our clients. Each project will receive the personal attention it deserves, with one point of contact throughout the stages of the design process.

Our company is equipped with the latest computer-aided design software, such as AutoCAD 2004[®] and Microstation[®], allowing our clients the diversity and benefits of each program. These are the two most common CAD software programs available assuring our clients flexibility.

Our President has over nine years of commercial design experience in the metro-Atlanta area. We specialize in, but are not limited to, corporate design, tenant development, office/warehouse and retail design.

ADI welcomes the opportunity to become a part of your team.
